

Taylor High School Wall-to-Wall Career Academies

2018-2019 School Year

What is a Career Academy?

The Taylor School District is proud to present the new Taylor High School Wall-to-Wall Career Academies. These Academies will open up a whole new world of individualized learning experiences for every student. The goal is for every student to begin focusing on future career interests and goals.

Utilizing previous investigations with Career Cruising, MI Bright Future, and individual interests, all students will select a theme-based academy. The benefit of this type of enrollment is to create an atmosphere that is more personalized for each student. The students will enter into an academy where they will gain a sense of belonging by being part of a smaller learning community of students who share similar interests. They will be engaged and supported by a core group of teachers within their academy.

The academy experience will be invaluable for all students! It will help raise awareness of the importance and relevance of education, as they prepare for their future. The Career Academies will provide critical work skills and knowledge for our students to thrive in their career field. Local business and industry partners will directly benefit from this type of progressive secondary education.

How Who When Where Why

Career Academies provide individualized learning experiences, based on student interest.

Students will gain real world experience, and have the opportunity to earn industry certifications.

Taylor High School students will be prepared to:

- Enter post-secondary training, including community colleges and universities
- Further their studies through Career Technical training programs
- Enlist in the military
- Join the workforce

Enrollment in any Career Academy will provide the opportunity to earn industry standard certifications.

Certification examples include:

- Microsoft Office Specialist
- CPR
- Bloodborne Pathogens
- Lifeguarding
- Sports Officiating
- Safety Protection
- National Institute Machine Skills
- ServSafe Food Handler

- Dual Enrollment
- Early College
- Articulation Credits (for post-secondary credit)
- Advanced Placement Courses

Early College Program

Through a collaborative partnership with Wayne County Community College (WCCC) and Taylor School District, students can take eight college courses. The only financial obligation to the student and family is the cost of the textbooks.

Each student will take two college courses each semester at WCCC. Taylor Schools will provide the transportation to campus; however, students must provide their own transportation home.

These college courses apply to the student's high school transcript and are counted for high school graduation. Furthermore, these same college credits apply to almost 70 colleges and universities within Michigan.

The courses students will take include: Fundamentals of Speech, Introductory Psychology, Introduction of Visual Arts, Introduction to Sociology, American Government, Introductory Biology and English 119 & English 120.

One feature of many in this program is that students take these courses with their high school peers.

Dual Enrollment

This program allows students to take college courses of their choosing at the college of their choice. Students and their family may be responsible for partial tuition and fees, as well as transportation and books.

AP Courses Offered at Taylor High School

- AP Government & Politics
- AP Human Geography
- AP English Language & Composition
- AP English Literature & Composition
- AP Calculus
- AP Chemistry
- AP Biology

Introducing the new
Taylor High School
Wall-to-Wall
Career Academies

Home of the
Griffins

*It is important to note that throughout their high school career, students are not stuck in one particular academy. Based on changing interests, it is possible to switch academies.

There are many new and exciting opportunities coming to the new Taylor High School Wall-to-Wall Academies!

We welcome the opportunity to build and maintain successful partnerships with our business and industry community.

Go Taylor Griffins!
